Case Study – Wolters Kluwer

The Client

Wolters Kluwer is a Global provider of professional information, software solutions and services for clinicians, nurses, accountants, lawyers, tax specialists etc. The work at Wolters Kluwer helps to protect people's health and prosperity and contributes to a safe and just society, while building better professionals in business.

The Challenges

Wolters Kluwer wanted to create an application for the iPad which would enable subscribers to get the trusted and authoritative legal, business and Tax analysis from Wolters Kluwer directly to their iPads. The application has to be designed in such a way that that it would give instant access to relevant cases, statutes, and regulations as well as provides enhanced functionality for efficient research workflow and increased productivity.

How did Cylsys help

Once Cylsys signed the NDA (Non- Disclosure Agreement) with the client and after receiving the requirements, the project was immediately assigned to the ace team of developers. The team at Cylsys had ample experience for creating exceptional Applications for the iPad. The developers worked overtime and across weekends to finish the project before the deadline. Cylsys created a content reader. They created a next generation iPad/Android based reader for medical and scientific journals. About 350 journals would be going live on the reader. A payment gateway was added, digital rights management capabilities was given and a host of other features added that made it very user friendly. Its comprehensive advertisement platform now had micro-targeting capabilities; carried context-aware, rich multimedia adverts; had sophisticated usage analytics to study user behaviour and frequently read articles; and supported online interactions between peers, users and advertisers.

The Outcome

The resources of Cylsys Software delivered exceptional results in this project.

The final outcome was an Application which was truly exceptional and exceeded the expectations of the client. The Client was very appreciative of the team at Cylsys for bringing to life an idea they had only on paper. This amazing result was only possible due to the pool of talent at Cylsys and the vision shown by the management of building such a team of talented developers across skill sets and across Technology.

Our Clients

We have worked with the following clients on different modules based on the requirements.

I do hope that this information will help you gain a clear idea of what we can offer, and that we can become a recognized vendor for your organization.
